

**USCTA
NATIONAL
LEAGUE**

SUPER EVENT

16 players, 4 teams, 3 days of court tennis
4 singles and 2 doubles matches each day

APRIL 2-4, 2024

April 2, 2024

Dear Court Tennis Enthusiasts,

The United States Court Tennis Association is thrilled to partner with the Racquet & Tennis Club to host our third National League super event. This format was born of necessity. Our game, just like other professional sports, was forced to adjust its approach during the last few years. By bringing the U.S.-based pros together in one location, with matches taking place over a dense three days of play, we were able to both support our professionals and, as spectators, get back to watching the game we love. This year 13 professionals and three top amateurs will compete across three days of incredible tennis. There is simply nothing like watching the game, particularly doubles, at this level. It feels particularly gratifying that two participants who have been supported as juniors by the Player Development Program and the United States Court Tennis Preservation Foundation—via the generosity of the Grassi Family—are now playing at this elite level.

The National League in the United States was conceived as an opportunity to bring our top U.S.-based players together to showcase our exciting talent to a broader audience than just our major tournaments. With the critical input of the professionals, National League continues to evolve as an important annual event. With your vital support of the USCTA and its National Fund, we are able to make this event's prize money worthy of the players.

I would like to thank all National Fund contributors, the R&T and all USCTA members for their generosity.

Play well!

Mary A. Livingston
USCTA, President

THE GAME TODAY

Court tennis in America is a vibrant game. The United States Court Tennis Association manages a rich list of fixtures: there are singles and doubles tournaments on most weekends of the year, including events for juniors, women, professionals and team inter-club matches. We use the global handicap system (called Real Tennis Online), a method that ensures close, competitive matches.

Court tennis has a dynamic, passionate global community. About five thousand people regularly play around the world in about 50 courts. We send junior teams abroad to play in England and Australia; many individuals and teams go overseas or come here to play in tournaments and tour courts. We also gather annually for world championships which date back to 1819.

- A mix of **tennis, squash,** and **chess**
- A blend of **time-honored traditions** and **modern athleticism**
- A challenge of **endless possibilities** in the pursuit of **excellence**
