

SUPER EVENT

**16 players, 4 teams, 3 days of court tennis
4 doubles matches each day**

MARCH 30-APRIL 1, 2026

Dear Members and Friends of Court Tennis,

The Racquet & Tennis Club is proud to partner with the United States Court Tennis Association in hosting the 2026 USCTA National League Super Event and Pro-Am. Now in its fifth edition, the Super Event continues to showcase the highest level of doubles competition in the sport.

This year's event will feature 13 professionals and 3 leading amateurs competing over three days in what promises to be the most exciting edition yet. During the U.S. Open just a few weeks ago, the players conducted a draft to determine their teams, adding further anticipation to the matches ahead.

With the invaluable collaboration of the professionals, the National League has evolved into the sport's premier annual event, consistently drawing the strongest field in the country. Your support is essential in ensuring that the prize money reflects the exceptional standard of play on display.

We extend our sincere gratitude to the USCTA, the U.S. Court Tennis Preservation Foundation, the National Fund and Lot 12 contributors, the Pro-Am players, and the members of the Racquet & Tennis Club for their steadfast support in making this event possible.

We look forward to welcoming you to the galleries for what promises to be an unforgettable tournament.

Ted Goneos
Tournament Chair

THE GAME TODAY

Court Tennis in America is a vibrant game. The United States Court Tennis Association manages a rich list of fixtures: there are singles and doubles tournaments on most weekends of the year, including events for juniors, women, professionals, and team inter-club matches. We use a global handicap system, a method that ensures close, competitive matches.

Court tennis has a dynamic, passionate global community. About five thousand people regularly play around the world on 50 courts. The sport continues to grow, marked by the opening of Sand Valley Court Tennis in Wisconsin in 2024 and the opening of the Bradfield Court in Sydney, Australia, last year. We send junior teams abroad to play in England and Australia; many individuals and teams go overseas or come here to play in tournaments and tour courts. We also gather annually for World Championships, which date back to 1740.

The balls are heavy and handmade by the professionals. Players usually hit backspin or sidespin rather than topspin. The racquets are wooden and tightly strung.

A mix of **tennis, squash, and chess**

A blend of **time-honored traditions** and **modern athleticism**

A challenge of **endless possibilities** in the pursuit of **excellence**

MATCH SCHEDULE

MONDAY, MARCH 30
